```javascript
function update(){
    let score = parseFloat(document.getElementById("input").value);
    let grade = "";

    if(score >= 80){
        grade = "A";
    }else if(score >=60 && score <=79){
        grade = "B";
    }else if(score>=40 && score <=59){
        grade = "C";
    }else if(score >=0 && score <=39){
        grade = "F";
    }

    document.getElementById("grade_span").innerHTML = grade
}
```
